EDUCATION

Georgia Institute of Technology <i>Master of Science in Computer Science – In Progress</i>	2024 – Present <i>Remote</i>
University of Central Florida <i>Bachelor of Science in Computer Science, Minor in Mathematics</i>	2019 – 2022 <i>Orlando, FL</i>

EXPERIENCE

ScribeAmerica <i>Remote Medical Scribe</i> - Translated clinician observations into structured electronic medical records, organizing clinical information and coordinating documentation remotely. - Maintained confidential clinical documentation while handling sensitive patient information under HIPAA requirements.	Sep 2024 – Sep 2025 <i>Remote</i>
Outlier AI <i>AI Model Evaluation Specialist, STEM (Contract)</i> - Evaluated AI-generated technical responses for correctness, isolated reasoning failures, and documented findings to support model quality assessment. - Designed prompts and edge-case scenarios to probe model behavior; produced structured evaluation labels and actionable feedback.	Aug 2024 – Dec 2024 <i>Remote</i>

PROJECTS AND TECHNICAL TRAINING

Arkollab Luxury Bag Appraisal <i>AI-assisted client prototype React, Firebase, REST APIs</i> - Gathered client requirements, tested appraisal workflows, identified bugs, and collaborated on code reviews and changes for an image-based valuation prototype. - Measured complete appraisals at approximately 2–3 minutes versus a 10–12-minute manual baseline: approximately 75% less time in prototype testing; not deployed to employees.	2026
Koë USA & Ghost Worldwide Restaurant Prototypes <i>AI-assisted prototyping React, TypeScript, Vite</i> Created two restaurant prototypes using AI coding tools: a pickup/cart experience for Koë and an ordering-handoff website for Ghost.	2026
Social Media API – Revature Cohort Training <i>Java, Spring Boot, Spring Data JPA, JDBC, SQL, H2, Maven</i> - Implemented 8 HTTP endpoints for registration, login, and message CRUD operations, separating controller, service, and repository responsibilities. - Validated inputs and handled duplicate accounts and failed logins; implemented a separate JDBC version with parameterized SQL for account and message operations.	Jan – Apr 2025
Polybay NFT Marketplace – Bachelor's Capstone <i>Next.js, Solidity, Hardhat, Ethers.js, IPFS</i> Initialized the team repository and contributed the initial ERC-721 URI-storage contract for NFT minting and metadata; collaborated on wallet-connected minting, listing, purchase, and resale flows.	2021 – 2022

TECHNICAL SKILLS

Tools & Languages: Java, SQL, Python, C, JavaScript, TypeScript, Solidity, Spring Boot, Spring Data JPA, JDBC, H2, Maven, React, Next.js, HTML/CSS, Git, Firebase, Vite, OpenAI Codex.
Applied Skills: REST APIs, CRUD, parameterized SQL, input validation, agentic development workflows, prompt iteration, code review, LLM evaluation, requirements gathering, manual testing, debugging.

AWARDS

University of Central Florida: President's List (Spring 2020); Dean's List (Spring & Fall 2021).
